Godfrey's Story

Dr. Godfrey is an innovative and skilled transformational leader and digital adoption strategist with over 20 years of experience helping organizations activate business strategy, increase performance and drive productivity through a human-centered approach. Through her consulting, training, and coaching, Dr. Godfrey advocates for leaders to be champions and agents of change, building skills of compassion, resilience, emotional intelligence and meaningful engagement with their teams.

With practical application of behavioral psychology and data science, coupled with her expertise in leading complex business transformations, Dr. Godfrey has designed and developed strategic communications and training programs for large corporate and government organizations such as Upfield Foods, CSM Bakery Solutions, Tides Foundation, U.S. Army Corps of Engineers, the U.S. Office of Personnel Management, Clayton County Public Schools, Orange County Public Schools, and more. Her Visionary Mindset™ coaching program empowers leaders to obtain maximum results and team performance through the principles inspired by a waterfall that includes "serving from the overflow", emotional intelligence, and transformational leadership.
